

ACCOUNTABLE

IIA understands safety is priority in this industry, and we take responsibility for always acting with integrity and in the best interests of our customers, our employees, and the public at large.

PROFESSIONAL

We confidently connect with our customers and are always detail oriented and solution focused. You can count on each of our team members to conduct themselves in a positive and personable way, highlighting IIA's commitment to customer service and respect.

ENGAGED

Everyone within IIA is eager to listen, communicate with, and fully understand our customers' needs and goals. Further, our team finds answers, explores possibilities, and provides successful solutions. Sometimes this means delivering accurate solutions by using traditional technologies or challenging a seeming impossibility and applying a new technology.

improvement.

IIA offers timely, accurate, and reliable inspections, certifications, and testing solutions in both laboratory and field settings. Our company has grown to serve the whole of North America with a presence across the entire United States and a large growing footprint in Canada and Asia.

STORY-WORTHY SERVICE

Whether for a routine inspection or a unique and challenging lab, field, or examination project, IIA is committed to providing professional, fast, and accurate service each and every time. Our customers' success is priority, no matter what, and this is what makes our service story-worthy.

Current and future customers benefit from IIA's industry expertise and continued expansion.

OUR NATIONAL FOOTPRINT

IIA has an extensive national footprint and an ever-expanding global presence in the industrial sector. We are a leader in this market within the United States and Canada. Our highly-skilled industrial experts, technicians, and engineers provide a wide range of testing, inspection, certification, and engineering service offerings across North America and within multiple industries. IIA's leadership and expertise in the industrial sector, coupled with our ever-expanding geographic footprint, means we have the ability to mobilize quickly and offer services at competitive pricing.

Our customers praise us for our consistent professionalism, technical leadership, integrity, and expertise. IIA's expert mutli-skilled technicians and engineers understand what's important to you, and they know how to provide it in a manner that serves you quickly and thoroughly.

HUNDREDS OF EXPERTS SERVING YOU

IIA's hundreds of employees are all knowledgeable, curious, and professional, and each has a unique skill set that ensures best-in-class service for you.

LOCATIONS ACROSS THE GLOBE

IIA operates many field offices and laboratories across the United States and also operates offices in Canada and China.

IIA provides services to a wide variety of customers across many sectors, including nuclear power, oil and gas, petrochemical, aerospace, defense, municipalities, lifting, and manufacturing.

We offer Nationwide field inspection services and support the operation, maintenance, compliance,

repair, and emergency services to ensure safe, reliable facility operations. We are also the only source you need for Lab and Engineering Services projects, including 3D and Laser Scanning.

SERVICES

IIA provides an array of industrial services across several industries. We offer Nationwide field inspection services and support the operation, maintenance, compliance, and repair for your systems to ensure safe, smooth, and reliable facility operations. We are also the only source you need for all your Lab and Engineering Services projects. We provide full-service crane care, lift inspections, maintenance, modifications, and repairs, and we also provide top-to-bottom inspections for fire trucks, including detailed Fleet Safety Analysis (FSA) reports.

INDUSTRIAL INSPECTIONS

IIA's expert technicians are available 24/7 to support your planned or forced inspection needs and operate with a focus on safety and compliance. Our multi-skilled technicians are the go-to experts to provide inspections and examinations utilizing technologies you are familiar with, such as automated and manual techniques, as well as traditional and specialty NDE methods, but also utilizing proprietary or in-house designed specialty tooling for inspection or retrieval challenges. There are no inspection projects that we cannot support, however typical projects have covered corrosion inspection for pipelines, boiler tube inspections, plant outage planning, remote visual inspection (RVI) for cleanliness and foreign object retrieval, weld quality inspections, and much more.

LAB SERVICES

As one of the largest dedicated quality service provid in the Nation, IIA is the only lab source you need for for Dimensional Inspection, Calibration, Certification, Testing, Failure and Engineering Analysis. We have strategically placed specialized equipment to support our customers throughout North America.

ENGINEERING SERVICES

IIA offers solutions to your engineering challenges by providing design and integrity assessment services for structural, civil, mechanical, and reverse engineering, and also lift planning engineering.

LIFTING SERVICES

We offer comprehensive Crane and Lift services for companies, municipalities, and all organizations that need annual inspections, maintenance, modifications, and repairs for lift and crane equipment, including top-to-bottom inspections of fire trucks. We also track fleet services and provide a detailed Fleet Safety Analysis (FSA) which helps Fleet Managers make critical equipment decisions.

VISIT INDUSTRIAL-IA.COM FOR MORE INFORMATION.

We are the go-to industry expert for Non-Destructive Examination (NDE) services for new construction projects using traditional technologies, such as X-Ray, Magnetic Testing, Dye Penetrant Testing (PT), and Phased Array Ultrasonics (PAUT). We have decades of experience in providing weld quality inspection services for upstream, mid-stream, and plant construction for buried pipeline and fixed equipment and in conducting Remote Visual Inspection Services (RVI) supporting foreign object retrievals, as well as remote access verification of quality and cleanliness.

66

IIA's NDT technicians are the best in the industry. Nobody in this industry compares to the top-notch team I've worked with from IIA.

- Chris, NDE Manager, NORTH AMERICA'S LARGEST TANK CAR MANUFACTURER

TRADITIONAL NDE

- Radiography (RT/CR/X-Ray)
- Magnetic Particle (MT)
- Penetrant Testing (PT)
- Ultrasonic Thickness Testing (UTT)
- Visual Testing (VT)
- Post Weld Heat Treatment
- Corrosion Mapping
- Ferrite Testing
- Hardness Testing
- Positive Material Identification (PMI)
- Program and Procedure Development

ADVANCED NDE

- Automated Corrosion Mapping (Internal)
- Automated Corrosion Mapping Laser Profilometry (External)
- Phased Array (PAUT) Manual & Automated
- Full Matrix Capture (FMC)
- Time of Flight Diffraction (TOFD)
- Shear Wave
- Guided Wave Testing (GWT)
- In-Line Inspection (ILI Validation)
- Pulsed Eddy Current
- Weld Quality Inspection

SPECIALTY NDE

- Proprietary Technologies
- Phased Array Sectorial Scanning PASS® Valve Examinations
- Precision Ultrasonic Testing
- Absolute Recordable Manual Ultrasonic Testing (ARMUT®)

RVI

• Internal Visual Inspections of anything from 1/4" and above

CERTIFICATIONS & GUIDELINES

- All Certifications Based on ASNT Guidelines
- Multiple State Licenses for Radioactive Materials
- In-Line Inspection Validation (ILI)
- Compliance to Pressure Equipment Directive 97/23/EC (European Certification)
- Compliance to Pressure Equipment Regulations 1999, ASNT Level III
- IRRSP Certified

Industrial Inspection & Analysis (IIA) is the go-to professional providing safe, quality inspections for outage and maintenance needs across North America. IIA's breadth of technicians are certified to industry standards, understand your plant operations, and have the ability to respond to multiple concurrent outages. Our team provides outage planning; as well as visual, magnetic particle, penetrant, and ultrasonic inspections; and much more. IIA's team ensures the continued reliability and availability of your plant.

We have been serving the pulp and paper and power industries decade after decade and are the trusted leader in these sectors. Our team consists of highly qualified professionals, including Certified Welding Inspectors, who provide expert and story-worthy service each and every project.

66

IIA's responsiveness in completing three last-minute and urgent projects is appreciated, and IIA's team did a fantastic job in communicating, sharing in that sense of urgency, and providing us with exactly what we wanted."

- Gregg Maddox, Great Plains Industries

SERVICES

- Outage Planning
- Boiler Visual Inspection
- Tank and Piping Inspections
- Burner Set Up
- Quality Control/Quality Assurance
- Hydrogen Damage Inspection
- API 653 Tank Inspections
- API 570 Piping Inspections
- API 510 Pressurized Vessels
- IRIS & Near Drum Testing

INSPECTION METHODS

- Visual Inspections
- Eddy Current Testing
- Magnetic Particle Testing

IIA offers full-service exams, support, solutions, and equipment, ensuring your plant is safe, clean, and compliant. IIA also provides strategic partnership support for Section XI and non-Section XI examinations.

IIA provides maintenance services and a variety of automated and manual Non-Destructive examinations (NDE). We use a combination of conventional, cutting-edge technologies and proprietary technologies, including Phased Array Sectoral Scanning (PASS™), AIRIS, ARMUT, and coordinating data tracking software.

We conduct thorough and reliable facility inspections and deliver critical information in a timely manner for every part of your facility and all critical components: piping, core shroud, dissimilar metal welds, storage tanks, steam generator, dryer and heat exchangers, turbines, Threads in Flange (TiF), Boiling Water Reactor (BWR), Pressurized Water Reactor (PWR), specialty reactors, and more.

 Approved Vendor

With 45 years of lift service experience, IIA provides aerial and lift device inspections as well as certifications to a variety of companies, municipalities, and public and private utilities across the US and Canada, including inspection and testing for fire department trucks from top to bottom.

IIA performs all inspections, as well as visual, operational, and non-destructive testing services for your fleet which ensures safety and compliance of all your equipment. In turn, your operators can confidently provide services to customers and municipalities knowing the equipment IIA has serviced is safe and compliant.

You receive fast, friendly, and professional services with easy-to-read reports and fleet management tracking, which streamlines service and maintenance needs.

- Federal OSHA Certified
- Cal-OSHA Certified
- Washington State Construction Crane Certified
- Protocols meet current guidelines of the Institute of Electrical and Electronics Engineers (IEEE) Standard 978
- Protocols are compliant with current OSHA 29 CFR Part 1910 rules and regulations

IIA is equally focused on quality and safety, which makes us the full-service industry leader in crane care. With 20 years of experience, you can trust we consistently use the highest quality materials and ensure exceptional workmanship for all projects: routine, preventative, or emergency service or fabrication and installation of new crane equipment. Our experts conduct testing, operator training, certification, OSHA/ANSI/ASME inspections, part sales, and repair of all crane systems.

We are always up-to-date on the latest standards, regulations, and technology affecting the lift industry through participation on standards committees and user associations. We track your fleet's inspection needs and inform you when your equipment is due for inspections.

IIA's Fire Department Testing Division understands that under the best of circumstances, being the leader of a station is a demanding task. Between fighting fires, responding to medical emergencies, assigning duties, and conducting training, you must also track and schedule annual truck inspections. Our experts understand those pressures and know exactly what you need. IIA guarantees a streamlined and worry-free inspection experience for you and your station every time.

With our system, our experts can inspect 20,000 feet of hose per day and reload at a 90% faster rate.

66

Thank You for coming out and doing our inspections on such short notice. It's greatly appreciated. IIA's technician was top notch. He was very knowledgeable and friendly, and we are going to have him back to perform our next inspections. Thank you!

SERVICES & TECHNOLOGIES

Fire Hose Testing

 Hard Suction Hose per NFPA 1962 section 7.5 using a dry vacuum versus the typical hydrostatic test Fire Pump Testing

- Visual Inspection (undercarriage)
- Gathering of critical apparatus, engine, and pump information
- Capacity test, 100% at 150 PSI for 20 minutes
- Overload test, 100% at 165 psi for 5 minutes
- 70% test, at 200 PSI for 10 minutes
- 50% test, at 200 PSI, for 10 minutes
- Gauge Accuracy

Aerial and Ground Ladder Testing

- Visual Inspection
- Horizontal Bend Test
- Roof Hook Test
- Hardware Test

CERTIFICATIONS & GUIDELINES

- Adheres to all EVT and strict NFPA standards
- Ground ladders are in accordance with the current NFPA 1932 guidelines
- Complete inspection and non-destructive testing program to meet the current NFPA 1911 as well as 1932-2010 guidelines
- ISO/IEC 17020 Accredited

IIA's Laboratory Services is one of the largest and most trusted full-service industrial and commercial laboratory facilities in the country. IIA works across a spectrum of industries, and our experts offer unique, quality solutions for all of your challenges. IIA's industry expertise, professional certifications, and highly-skilled engineers and technicians, coupled with our full-service lab capabilities, fulfill your project needs. Whether it is supplementing capacity with occasional overflow, performing pre-compliance testing or third-party evaluation, contracting a CMM Programmer for new parts, or outsourcing your entire quality department, IIA's Lab Services can meet all of your lab needs.

66

Everyone here agrees, IIA is quick in all areas: communication, response, and return of parts. Thank you.

Dedicated to solving quality concerns and design challenges, we create comprehensive and cost-effective engineering solutions. We offer Structural Engineering services for industrial, commercial, institutional, and construction projects. We have several specialties, including steel and concrete, open web steel joist reinforcements, and concrete slab design. Our Mechanical Engineering experts assist in the following areas: Lift Equipment, Lift Planning, Machine Design and Drafting, Design Validation, Finite Element Analysis (FEA), and Fall Protection Services. We also provide 3D Scanning for reverse engineering, geometry recreation, and 3D modeling to serve an array of applications and industries.

IIA is our company's preferred vendor for 3D inspection and reverse engineering projects. IIA is an excellent choice for quick inspection projects or an alternative to our internal operations.
