

INDUSTRY NEWS FROM OUR ENGINEERING EXPERTS

Fall is in full swing and whether your facility is facing a planned outage, you need engineering assistance, or you're planning ahead for required inspections, IIA is here for you.

- Our experience spans many industries with a diverse array of [structural engineering](#) projects, from building restoration to sign structures.
- Our engineers work behind the scenes to help ensure the safety of [stage productions](#) and art displays.
- IIA can provide urgent assistance to [identify the root cause](#) and help you prevent similar misadventures in the future.
- [Mihir Shah](#), whose expertise, positive attitude, and commitment to customer service earned him the title of IIA's 2021 Sales Professional of the Year.

Mihir and the rest of the IIA team are at your service. Give us a call at (866) 812-2205 to help meet your industry requirements.

Sincerely,

Keith Boshart

Director of Sales

In the Spotlight: Entertainment Engineering

You may be familiar with the IIA name in the industrial arena, but it may surprise you to learn IIA is also a trusted name in entertainment engineering. From concept to final construction, our engineers helped

with the design of structures and mechanical systems for performance venues, entertainment productions, unique art exhibits, and more. We will ensure that safety standards are upheld, without compromising the aesthetics or functionality of the artist's vision. [Read about the art of entertainment engineering.](#)

Structural Engineering Solutions for a Safer World

Need design services for projects ranging from catwalks to cranes? Want to make sure your fall protection system won't let you down? Need reverse engineering to ensure that concrete floor will support a new machine?

From the fabrication shop to the field, IIA is a leading provider of structural engineering services. We specialize in steel and concrete design, and offer a wide range of services, including turnkey solutions for your industrial, commercial, institutional and construction projects. Learn more about our [structural engineering](#) services.

Who to Call if You Experience Murphy's Law

As Murphy's Law reminds us, even the best-laid plans can sometimes go awry. As a trusted leader in equipment integrity, IIA can determine the reasons behind a misadventure or equipment failure and help you get back on track sooner rather than later. Our experts can conduct a thorough, unbiased investigation and help you navigate regulatory requirements for accident reporting and resolution. Mihir Shah: Always Looking for Ways to Grow

Always fascinated by science and technology, Mihir Shah was attracted to the field of engineering from a young age. Today, as Sales Engineer at IIA, Mihir's curious mind, positive attitude and unrivaled expertise help deliver the perfect solution for every

customer. As he says, "At the end of the day, the work we do helps to save lives, and that's one of the most satisfying things about working at IIA." [Meet Mihir.](#)

What Our Customers Are Saying

"We were in an urgent situation and needed the certification as soon as possible. Your tech was here at 7 AM the next morning, which really helped us with the elevator failure mitigations that were required to maintain production. Very good work!"

- Petro Canada - A Holly Frontier Company

Let's Connect
