Top 10 Questions to Ask Lift Service Providers

From price and scheduling to standards and certifications, IIA offers these [Top 10 questions](#) to ask when evaluating potential testing partners.

Understanding Testing Requirements for Aerial Devices

For aerial devices, such as elevated platforms, booms, or ladders, improper maintenance and metal fatigue are the most common problems that lead to safety issues. Adhering to a scheduled testing and maintenance program is the easiest way to avoid most unexpected events — and [IIA can help](#).

Watch: Comprehensive Fire Truck Inspections

Is your fire station looking for a streamlined and worry-free inspection experience? [Watch a brief video](#) showcasing IIA's top-to-bottom fire truck inspections.

Documentation is Key to Ontario Crane Regulations

Crane owners, sharpen your pencils! Detailed documentation is more important than ever to comply with the new Ontario crane laws. Read why [logbooks are critical](#) and what to do if you don't have one.

What our Customers are Saying

“Not only does your technician satisfy and impress field operations, his expertise alleviates an immense amount of workload off of my plate.”

Area Fleet Manager

Walking the Talk on Safety

Total Recordable Incident Rate (TRIR) —the number of injuries per hours worked —is an excellent indicator of a company's safety culture. IIA's low TRIR of .49 in 2023 reflects our commitment

to safety — and our mission of Making the World Safer. To reduce your risk, [read why](#) you should consider TRIR when evaluating inspection companies.

Matt McKinlay Goes the Extra Mile

Looking for Matt McKinlay? When he's not performing non-destructive testing (NDT), he's probably pursuing his lifelong passion: fishing. But he may not be easy to find. When it comes

to fishing and NDT, Matt always goes the extra mile. [Get to know Matt.](#)
