

Industrial Inspection & Analysis Opens New, State-of-the-Art Testing Lab in Alachua, Florida

September 28, 2023 – ALACHUA, FL – Industrial Inspection & Analysis, Inc.® (IIA) — a leading provider of inspection, testing and analytical services — recently opened a state-of-the-art testing lab at San Felasco Tech City in Alachua, Florida. The newly constructed facility, featuring more than 15,000 square feet of office and laboratory space, is home to IIA’s ElectroMagnetic Compatibility (EMC) division.

With an emphasis on entrepreneurship and environmental responsibility, Tech City features five first-of-their-kind solar trees and the world’s largest array of bifacial solar.

“Our new lab location in San Felasco Tech City offers IIA a great place to collaborate and continue delivering innovative testing services to customers around the world,” says IIA Leader, Title. “We look forward to continuing to grow in an environment that cultivates technical expertise, environmental responsibility and the entrepreneurial spirit.”

Since 1976, IIA’s EMC team (formerly known as Timco Engineering) has been a leading provider of electronic device testing and certification that helps bring innovative products to the world — from medical devices to marine radars.

IIA’s Florida lab specializes in a full range of wireless testing and certification services, including:

- EMC Testing
- EMI Testing
- RF Testing
- Wireless Testing
- Emissions Testing
- Immunity Testing
- Susceptibility Testing
- Product Safety Testing
- Electrical Safety Testing
- LVD Testing
- CE Safety Testing
- Environmental Testing
- Environmental Simulation Testing
- Temperature Testing
- Vibration Testing
- Mechanical Shock Testing
- RF Exposure Testing
- MPE testing
- SAR Testing
- Nerve Stimulation Testing
- MIL-STD 461 Testing
- RTCA-DO 160 Testing
- Automotive EMC Testing

IIA’s EMC division was most recently based in Newberry, Florida. With the relocation to Alachua, the Newberry facility has been closed.

About IIA

Industrial Inspection & Analysis (IIA) is one of North America’s leading providers of non-destructive examinations. We offer a wide range of services in both laboratory and field settings, including testing, certifications and engineering solutions. Across North America, we help ensure safety, performance and compliance in an array of industries: aerospace, defense, emergency response, power generation, oil and gas, petrochemical, manufacturing, medical and more. As part of our mission to make the world safer, IIA

is committed to operating in an environmentally and socially responsible manner, and to helping our customers do so as well.
