

## THE LATEST FROM IIA

### Tap Into the Power of Prevention

Through Asset Integrity Management — the practice of implementing routine non-destructive examination — you can minimize hazards before they endanger workers and avoid costly downtime, repairs and compliance issues. [4 Reasons to Consider an Asset Integrity Management Program.](#)

### Polymer Melt Flow Index for Material Processability

Need to better understand the flow properties of a thermoplastic? Determining a polymer's melt flow index (MFI) is helpful for plastic processors and manufacturers because it provides insight into the material's processability. Read our blog post: [Going with the Flow: What You Need to Know About Melt Flow Testing for Thermoplastics.](#)

### Elevate Your Expectations with Drone Inspections from IIA

Smokestacks. Elevated conveyor belts. Buried piping. Are you facing a difficult inspection? Before renting lift equipment or erecting scaffolding, check out IIA's [Drone Inspections](#), featuring equipment **MADE IN THE USA.**

### Palmerdale Fire Chief Recommends Third-Party Hose Testing

After performing hose testing in-house for several years due to a budget crunch, the Palmerdale Fire Department is glad to have IIA back on board. [Read how expert testing can prevent minor issues from becoming major.](#)

## THE LATEST FROM IIA - Q4 2024

### Cameron Curbelo: Taking Care of Business & People

From family man to manager to metalhead, the common thread in Cameron Curbelo's life is caring about people. [Get to know Cameron.](#)

### IIA's EMC Lab Receives Product Approvals for ISED Testing

Need ISED RSS-102 nerve stimulation testing for products sold in Canada? IIA's Florida lab can help. We're one of only a few labs in North America that is approved to complete testing in the 3 kHz to 10 MHz range according to ISED's new requirements. [Learn more.](#)

### What our Customers are Saying

"Appreciate the AWESOME Customer Service. If you guys could bottle it, you would all be able to retire." - Defense Contractor

### Let's Connect

We want to hear about your inspection and engineering needs. Whether you have a quick technical question or need urgent, on-site assistance, we're here for you. Call us at **470-646-6264** or complete our [online form](#) and we'll get back to you within 24 hours.

Be sure to follow us on [LinkedIn](#) to learn about the latest tools and techniques we're using to solve our clients' problems and make the world safer.
