

ENVIRONMENTAL TESTING EXPERTISE

We are committed to providing fast, accurate, and reliable testing for water, soil, sludge, petroleum products, and much more.

IIA provides testing for storm water, drinking water, and wastewater runoff/discharge for municipalities. For our corporate customers, we provide on-site, automated composite testers that can be scheduled to take intermittent samples, and for our residential customers, typically for pre-purchase home inspections, we provide mineral, bacterial, and heavy metal scans.

ENVIRONMENTAL TESTING

METALS TESTING

- Lead in Drinking Water
- Lead in Paint
- Mercury
- TCLP Metals
- Hardness
- Hexavalent Chromium
- Coupon Testing

BACTERIA TESTING

- Total Plate Count (SimPlate)
- Total Coliform & E. coli (Present/Absent)
- E. coli (Enumeration)
- Fecal Coliform
- BART

OTHER TESTING

- FCC
- USP
- Ink Testing
- Cleanliness Testing
- Water Vapor Transmission
- Titrations
- Solids (TSS, TS, TDS, Settleable)
- Karl Fischer Moisture
- Flash Point
- Phthalates
- Anions (IC)
- Nitrogen (Ammonia, TKN, Organic)
- Oil & Grease / TPH
- Surfactants (Anionic & Cationic)
