

## THE LATEST FROM IIA'S LIFT SERVICES TEAM

### Our Lift Services May Surprise You

Our Lift Services team is always raising the bar to better serve customers — adding new services, expanding our reach, and training new technicians. In fact, some of our [Lift Services](#) may surprise you.

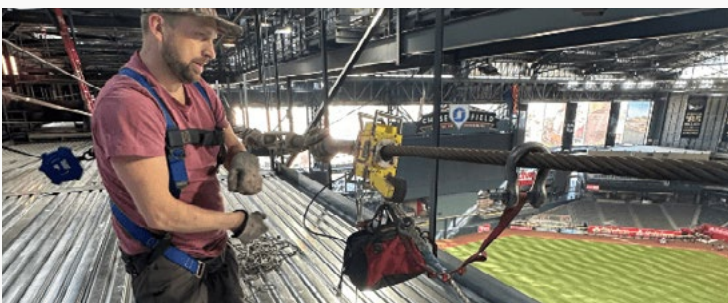

### Our Firefighting Community is Growing!

IIA is fired up to bring our NFPA-compliant Fire Equipment Testing Services to the Southeastern U.S. and our state-of-the-art Fire Pump Testing to the Northeast. With IIA on board, fire departments can focus on what matters most: keeping communities safe.

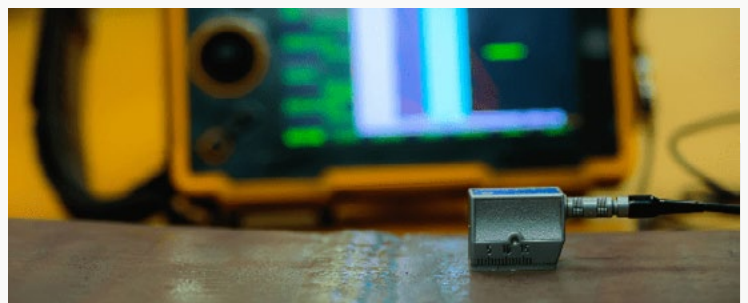

### Faster Response Times for First Responders

Did you know? Our Fire Services team can test in one day what it takes other companies several days to complete — and that means less downtime for emergency vehicles.

### Up to Bat: Wire Rope Testing

Read how IIA's [Magnetic Rope Testing](#) scored a [home run](#) when management of a major league baseball stadium wanted to assess the retractable roof's cable system.

### Wondering About Welds?

Providing fast and accurate weld inspections is one of the most common industrial uses for ultrasound. Read why today's advanced [Phased Array Ultrasonic Testing \(PAUT\)](#) offers a superior technique to conventional methods.

## THE LATEST FROM IIA'S LIFT SERVICES TEAM - Q3 2025

### Nice to see you at EUFMC!

As you can see from their smiles, the IIA team — Cameron Curbelo, Brian Burger, Mike Jolly and Brandon Long — had a great time at this year's Electric Utility Fleet Managers Conference. The EUFMC is one of our favorite ways to learn, share and connect with colleagues in the utility industry.

### Get to Know Kova

Founded in 1989, Kova Engineering set the standard for crane inspection, certification and engineering in Canada. Today, Kova provides premier services for a host of vehicles, equipment, and machinery. [Get to know Kova](#), part of IIA since 2024.

### Is Your Fuel Performing?

Fuel and other fluids are the lifeblood of industrial machinery. Our labs can accurately test down to the micron level, where problems such as pitting, cavitation and bacteria begin. Read how [routine fuel testing can keep setbacks from becoming serious](#).

### What our Customers are Saying

"All lift equipment has the potential to be dangerous. Inspections bring a new level of confidence to that equipment. Even something that seems minor can be a really big deal. Somebody's life is in our hands."

- IIA Lift Services Employee

### Let's Connect

We want to hear from you! Let us know about your latest inspection challenges and how we can help. Call us at **866-812-2205** or complete our [online form](#) and we'll get back to you within 24 hours.

Be sure to follow us on [LinkedIn](#) to learn about the latest tools and techniques we're using to solve our clients' problems and make the world safer.
