IIA Completes Crunch Job for Potato Chip Manufacturer

When batch inconsistencies came to light at a Colorado potato chip factory, the fryer pan was the primary suspect. On-site scanning from IIA helped this customer pinpoint dips and slopes in the pan that were affecting the frying process. [Read how IIA's appetite for excellence keeps this snack-maker coming back for more.](#)

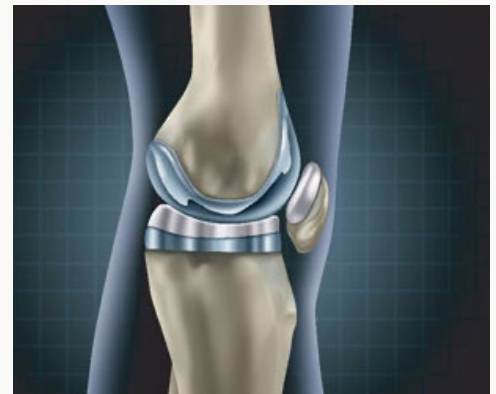

Slip Slidin' Away

Slides are a feel-good part of childhood. But a "WEEEEEE" can quickly turn into a "WHOA!" if a slide does not meet strict safety specifications. Read about IIA's [CPSC Safety Testing of Pool Slides](#) and meet the manager who happily takes the plunge for safety.

40 Years as a Calibration Leader

Congratulations to our [Lab Services](#) team in Washington state for 40 years of providing premier [Calibration & Pyrometry Services](#)! The work our team does, in the field and in the lab, helps reduce the risk of product defects, equipment malfunctions, and safety hazards. [Read more.](#)

Reverse Engineering for a Custom Fit

From prosthetics to dental implants, today's leading medical manufacturers rely on reverse engineering to create one-of-a-kind medical devices as unique as the person using them. [Read more.](#)

CREOSOTE ROOT

IIA Digs Deep to Meet Unique Scanning Challenge

When a Harvard University graduate student needed a 3D scan of a creosote bush's root system for his research project, IIA dug deep to help. Scanning the small, irregular geometry and curving root tendrils proved uniquely challenging. Read about IIA's [creative solutions for creosote bush scanning](#).

IIA's EMC Lab Turns 50

Since 1976, when it was known as Timco Engineering, IIA's [Florida Test Lab](#) has provided [testing and certification](#) of radiofrequency-emitting devices. Over the years, testing done at our EMC lab has touched every corner of the world. Read why our EMC lab is [proud to be a pioneer](#).

IIA Brings New Montreal Airport on Board

Contaminated or substandard jet fuel can affect flight safety by causing engines to malfunction or fail. Routine testing ensures that aviation fuels meet strict quality standards. IIA is proud to provide jet fuel testing for the new Montréal Metropolitan Airport in Saint-Hubert. Our fluid testing lab in Quebec will test and certify the jet fuel in the airport's storage tanks before it is transferred to airlines for use. [Learn more](#).

IIA Helps U.S. Navy Achieve Milestone

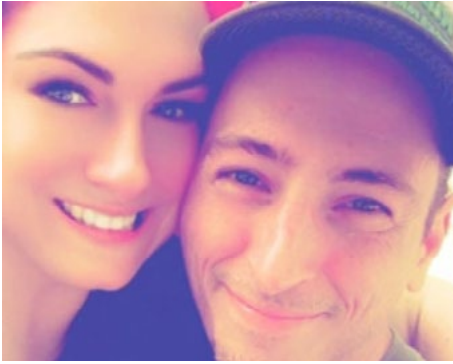

In March, Portsmouth Naval Shipyard welded and installed the first-ever metal 3D-printed submarine flange on the USS Washington. As part of the U.S. Navy Additive Manufacturing Center of Excellence (AMCoE) in Danville, Virginia, IIA played a key role in this milestone. Read the [Portsmouth Naval Shipyard news release](#) and learn more about IIA's Virginia Lab and [Services for Additive Manufacturers](#).

NDT: The Unsung Hero of Safety

Since the dawn of the Industrial Revolution, workplace safety has evolved by leaps and bounds. Along the way, the science of non-destructive testing (NDT) emerged as a cornerstone of accident prevention. Read how [NDT protects people, property, and the planet](#).

Who is Nick Batts (and why is he all wet)?

Whether Nick Batts is solving the mystery of a component failure, breaking a test item, or sliding into a pool, it's all for the sake of safety. As he says: "It's better to learn how and why things might fail during testing than after, so products can be made safe. That's why we test." [Get to know Nick.](#)

What Our Customers Are Saying:

When one of our customers missed their originally scheduled lab time at our [Florida EMC Lab](#) due to an internal miscommunication, the customer apologized and thanked our lab team for staying late to accommodate them.

"...my heartfelt thanks to you and the broader team for your flexibility and willingness to stay late to ensure [our team] could complete the pre-compliance scans. Your accommodation and professionalism speak volumes about IIA's commitment to customer satisfaction and to being a true partner to the organizations you support. We are genuinely grateful for the extra effort your team made, and it will not be forgotten."

— Electronic Device Manufacturer
